MAX IV DataSTaMP project and MAX IV involvement in ExPaNDS

Monday, 9 December 2019 13:30 (10 minutes)

MAX IV is developing storage and data services for MAX IV users within the DataSTaMP project thanks to the funding from KAW. MAX IV is also one of 11 partner institutions in ExPaNDS which aims for developing Photon and Neutron Data Services within the European Open Science Cloud (EOSC).

A very brief introduction will be given about these projects.
