

User Workshop on Coherent Soft X-ray Imaging

Tuesday 15 March 2016 - Wednesday 16 March 2016

MAX IV

Scientific Programme

This workshop will feature presentations by international experts on coherent x-ray imaging techniques, but also by scientists in Sweden who use soft x-ray imaging in their research and/or are likely future users of the CXI end-station. We aim to have discussions on the current design of the CXI-branch, the imaging opportunities and the needs of the community in order to steer the on-going design process towards a powerful, flexible and user-oriented end-station.
