OAM advancements in soft REXS

Wednesday 15 April 2026 14:00 (30 minutes)

Recently we demonstrated the ability of managing the OAM generated by dedicated optics, by adding and subtracting, manipulating and analyzing it. Now, we can prove off-axis capabilities going beyond standard treatment, In my talk, I will present some recent results on selected systems.

Presenter: MAZZOLI, Claudio (BNL)

Session Classification: Session 3
