

Science Symposium on Advances in Sample Environment and Experimental Control

Thursday 10 September 2015

Session 1 - Room 206 (10:20-12:00)

time	[id] title	presenter
10:20	[4] SANS sample environment at NIST past, present and future: from lessons learned to new opportunities	BUTLER, Paul
10:45	[9] Soft Matter Sample Environments at ISIS - continuous challenges and how collaborative efforts are proving to be effective	CHURCH, Andy
11:10	[10] Understanding Complex Materials with X-rays and Neutrons - realistic conditions and samples	RENNIE, Adrian
11:35	[11] Development of microfluidic sample environments for BioSAXS applications	VESTERGAARD, Bente
